

JUAN SEBASTIAN GARCIA

Web3 Builder · Onchain Analyst · AI-Assisted Developer · Bilingual (EN/ES)

Miami, FL · github.com/todoencadena · [@todoencadena](https://twitter.com/todoencadena) · [linkedin.com/in/sebastian-g-7aaa4b71](https://www.linkedin.com/in/sebastian-g-7aaa4b71)

PROFESSIONAL SUMMARY

Certified Onchain Analyst and Web3 builder with 5+ years in the crypto ecosystem, combining hands-on development, onchain data analysis, and 6+ years of trading and portfolio management experience. I build with live deployments on Solana, Base, and Circle's Arc — from AI agents to stablecoin payment flows — using an AI-assisted development workflow (JavaScript/TypeScript, Rust/Anchor, Python, Solidity) to ship working products quickly. Founder of Criollo, an AI agent in incubation after the WayLearn x Solana Foundation Hackathon. Bilingual (EN/ES) with a strong foundation in DeFi, stablecoins, and market analysis.

BUILDING & TECHNICAL PROJECTS

Founder & Builder · Criollo — AI Agent + Onchain Infrastructure | 2024 – Present

- Built and deployed an **ElizaOS-based AI agent** on Telegram using the Anthropic Claude API (JavaScript/TypeScript)
- Designed a **Verifiable Care Receipt (VCR) system** using EAS onchain attestations on Base
- Minted a live VCR on Solana Devnet (mint address JRtnkj4...WkEy); product pages live on GitHub Pages and Vercel
- Finalist in WayLearn x Solana Foundation Hackathon — project in incubation phase

Programmable Money on Arc (Circle / USDC) · Encode Club Course | 2025 – Present

- Completed hands-on implementations of **Developer-Controlled Wallets** using Circle's SDK
- Built **CCTP cross-chain USDC transfers** across EVM testnets
- Implemented escrow smart contract patterns for programmable stablecoin flows

Independent Builder — Solana & Sui · Mainnet & Devnet Deployments | 2023 – Present

- Built Alz16 — an autonomous AI agent on Solana using **Rust and the Anchor framework**
- Designed an NFT Digital Passport system for animal rescue tracking on Sui Network
- Development stack: GitHub, Railway, Vercel, Supabase (PostgreSQL), n8n, Replit

ONCHAIN ANALYSIS & MARKETS

Onchain Analyst — Certified · OnChainSchool | 2025

- Trained in wallet clustering, flow tracing, and MEV mechanics using **Arkham Intelligence and Dune Analytics**
- Published a forensic onchain analysis of WLFI (World Liberty Financial) wallets, tracking token distribution and transaction history
- Deep familiarity with Solana-specific dynamics including Jito and validator economics

Trader & Portfolio Manager · Independent | 2019 – Present

- 6+ years actively trading and managing portfolios across equities and crypto markets
- Applied technical analysis, risk management, and macro research; combined traditional market knowledge with onchain analytics for cross-market insight

COMMUNITY & CONTENT

Founder & Educator · [@todoencadena](https://twitter.com/todoencadena) / Asoblockchain Colombia | 2021 – Present

- Bilingual (EN/ES) crypto education across YouTube, Medium, X, and Discord (200+ daily active members)

- Published technical articles on stablecoins, blockchain architecture, and onchain financial risk

TECHNICAL SKILLS

Languages: JavaScript / TypeScript, Rust (Anchor), Python, Solidity — AI-assisted development workflow

Blockchains: Solana, Base, Sui, Polkadot — live deployments (mainnet & devnet)

Stablecoins / Payments: Circle Arc, USDC, CCTP, Developer-Controlled Wallets, escrow patterns

Onchain Analysis: Arkham Intelligence, Dune Analytics, wallet tracing, MEV/Jito

AI / Agents: ElizaOS, Anthropic Claude API, Telegram bot deployment

AI Output Evaluation: reviewing, testing and validating AI-generated code, analysis and responses; prompt design; bilingual EN/ES writing

Dev Tools: GitHub, Railway, Vercel, Supabase (PostgreSQL), n8n, Replit

Markets: Technical analysis, portfolio management, risk management (6+ years)

Languages (spoken): Spanish (native) · English (fluent)

CERTIFICATIONS

Onchain Analyst Certificate — OnChainSchool · 2025

Programmable Money on Arc (Circle/USDC) — Encode Club · 2025

Solana Bootcamp — Solana Network

Sui Blockchain Certification — Sui Network

Polkadot Blockchain Academy — Polkadot Network
